Mondo Ikouni Jérémie Lambert

Full-Stack Web, Mobile & AI Developer

PROFILE

Software Engineering student at IUG, designing high-performance web and mobile architectures. Strong hands-on experience in integrating and deploying AI tools, as well as developing custom cross-platform applications.

EXPERIENCE

ERP Developer
Nanfco Industries (nyukiai.com)
Douala | 2026-06 - 2026-09

- Engineered new sales interfaces and modernized existing screens to improve usability and visual ergonomics.
- Developed and integrated new backend modules, boosting search speed by 73%.

Web & Mobile Developer – Hackathon Innov'up #2
Pategou Consulting (pategou.com)
Douala | 2026-05

- Designed and prototyped an AI solution for financial institutions (Bancora AI).

ERP Developer
Mission Baptiste européenne (feebf.com)
Douala | 2025-08 - 2026-01

- Designed an offline-first B2B ERP: inventory modules, equipment tracking, and incident management with offline synchronization.

Web & Mobile Developer
Royal Advanced Services (royaladservices.net)
Douala | 2025-06 - 2025-09

- Designed and developed the e-commerce platform kanjad.cm and integrated the CinetPay API.

EDUCATION

Bachelor's Degree in Software Engineering
Institut Universitaire du Golfe de Guinée (IUG) | Douala | 2026-10 - 2027-06

In-depth curriculum in software engineering, system architecture, and application project management.

Associate Degree (BTS) in Software Engineering (Honors)
Institut Universitaire du Golfe de Guinée (IUG) | Douala | 2024-09 - 2026-06

Curriculum in application design, development, and maintenance: algorithms, object-oriented programming, databases, and IT project management.

Associate Degree (BTS) in Electrical Engineering (With Merit)
Institut Universitaire de la Côte (IUC) | Douala | 2020-09 - 2022-06

Training in electrical and automated systems: design, wiring, maintenance, and safety compliance.

Technical High School Diploma (Baccalauréat F3 – With Merit)
Inst. Saint Louis | Douala | 2019-09 - 2020-06

Technical baccalaureate, electrical engineering stream, covering fundamental electrical systems.

PROJECTS

CamerInd
AI-driven recruitment platform: job posting ingestion and cleanup, candidate coaching, and recruiter decision support.
